**Marylanders Against Poverty (MAP) strongly supports HB 18**, will ensure that low-income tenants in Maryland facing eviction have the right to an attorney to enforce existing legal protections.

**Even with COVID-19 legal protections in place, over 2,500 renter families were evicted during COVID-19 in MD.** Eviction laws and protections are only as good as their enforcement, and right to counsel will lay the foundation for more equitable, sustainable housing in Maryland as we recover.

This bill will level the playing field for tenants in rent court. 96% of landlords in the Stout study were represented, while only 1% of tenants were represented. This bill will level the field and ensure tenants are treated with respect and dignity. Further, in a 2016 survey of Baltimore renters, 80% of respondents had a defense to their eviction case, but only 8% of renters without counsel successfully raised a defense based on conditions of disrepair.

**The right to counsel in eviction cases will also provide significant social and economic benefits to the State.** A [recent report](#) by Stout shows that an annual investment of \$5.7 million in a right to counsel for tenants in one Md. jurisdiction would yield \$18.1 million in benefits/costs avoided to the State (and \$17.5 million to the locality). Costs savings or benefits include costs related to homeless shelters, Medicaid spending in hospitals, homeless student transportation, and foster care costs. According to Stout, 92% of represented tenants would avoid disruptive displacement with a right to counsel in one Maryland jurisdiction, and in areas of New York City where right to counsel was implemented, 86% of represented tenants stayed in their homes.

**MAP appreciates your consideration and urges the committee to issue a favorable report for HB 18.**
